

NARENDRA PAL

KEY ACHIEVEMENTS

- Designed high-availability AWS infrastructure with Auto Scaling and ELB.
- Implemented IAM policies ensuring secure access management.
- Automated S3 backups with versioning and Glacier archiving.
- Reduced incident resolution time by 30% through proactive monitoring with CloudWatch.

SUMMARY

AWS Cloud Support Engineer with 2 years of hands-on experience in supporting, troubleshooting, and optimizing AWS environments. Skilled in resolving incidents, managing deployments, and ensuring high availability of cloud infrastructure. Strong background in DevOps practices, CI/CD pipelines, and customer support with a focus on delivering reliable solutions in fast-paced environments.

EXPERIENCE

DevOps Associate, 03/2019 - Current

Parsvnath Developers Limited - Delhi

- Provide AWS support by troubleshooting EC2, RDS, and S3-related issues.
- Monitor applications using CloudWatch and resolve incidents raised by customers.
- Support weekend release implementations ensuring zero downtime.
- Collaborate with cross-functional teams to resolve infrastructure and deployment issues.
- Maintain CI/CD pipelines with Jenkins and GitHub for smooth deployments.

Operations Manager, 02/2016 - 02/2019

Innovative e-Solutions Enterprise - Punchkula

- Automated build and release processes, reducing manual intervention.
- Supported DevOps environments ensuring stability for development and QA teams.
- Designed scripts for deployment into VMware and AWS environments.
- Acted as single point of contact for DevOps support during production deployments.
- Managed JIRA for incident tracking and resolution.

Support Analyst, 10/2015 - 01/2016

National Minorities Development & Finance Corporation

- Delivered application support for J2EE-based systems, enhancing system reliability.
- Created monitoring solutions using JMX to enable proactive issue detection and minimise downtime.

EDUCATION

MCA, 01/2013

Rajiv Gandhi Proudtyogiki Vishwavidyalaya - Bhopal

BCA, 01/2010

Dr Bhimrao Ambedkar University - Agra

SKILLS

- AWS Services: EC2
- AWS Services: S3
- AWS Services: RDS
- AWS Services: CloudFront
- AWS Services: IAM
- AWS Services: Route 53
- AWS Services: Auto Scaling
- AWS Services: ELB
- AWS Services: CloudWatch
- AWS Services: SNS
- DevOps Tools: Jenkins
- DevOps Tools: Docker
- DevOps Tools: Kubernetes
- DevOps Tools: Ansible
- DevOps Tools: GitHub
- DevOps Tools: CI/CD
- CI/CD pipelines
- Scripting: Bash
- DevOps methodologies
- User Documentation
- Agile management
- Incident management
- Agile & Release Management
- DevOps methodologies
- Infrastructure management
- Problem solving
- Technical documentation
- Cross-functional collaboration
- Communication skills
- Team collaboration
- Teamwork and collaboration
- Client support
- Customer Support & Documentation
- Incident resolution
- Client support
- Technical Support
- Customer Service
- Service Reliability
- Stakeholder Engagement

CUSTOM

EC2, S3, RDS, CloudFront, IAM, Route53, Auto Scaling, ELB, CloudWatch, SNS, Jenkins, Docker, Kubernetes, Ansible, GitHub, CI/CD, Bash, PowerShell, True, True, True

- Operational Efficiency
- Document oversight
- Report evaluation
